IC Market Forecast[®] Outline and Structure of the Study

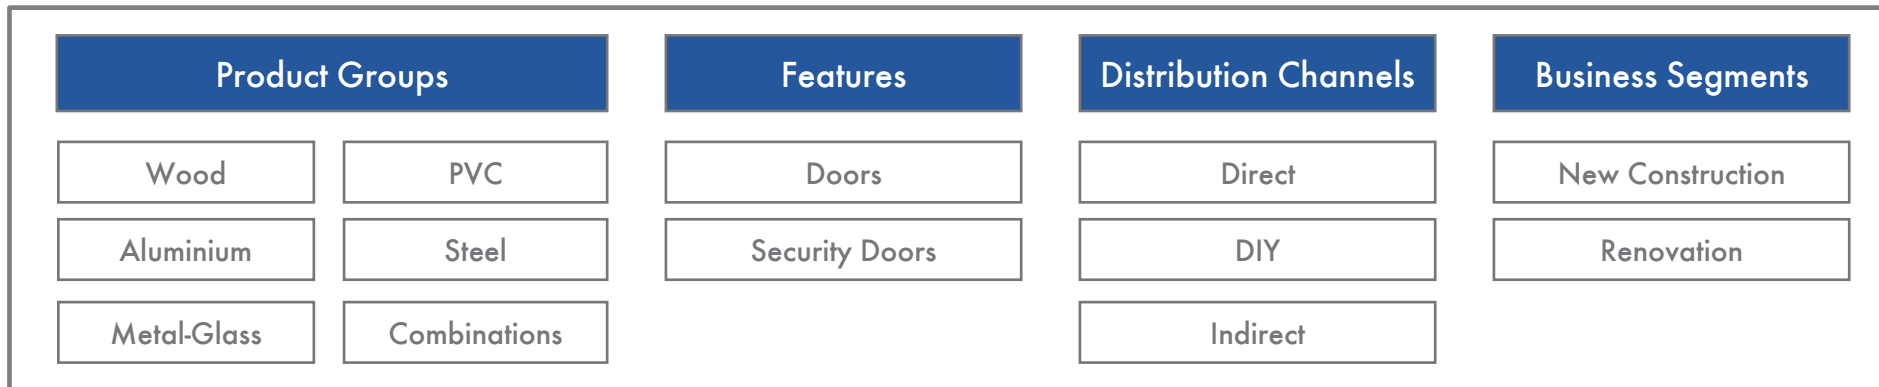

Market by

Residential Building

Non-residential Building

Market by

Market by

Total market data and forecasts from 2018 – 2026f for all segments

Value

Turnover is stated in 1.000 Euro. Values are always Net-Turnovers (No List-Prices), discounts included

Quantity

As there is no broadly accepted European standard door size, turnover is measured in units. As in many regions, companies are not prepared to quantify their door output in terms of size at all (e.g., door output is quantified in weight), transformation into door units is sometimes difficult. We do our best to provide reliable figures. Nevertheless the turnover expressed in value may provide more significant information of the sales volume than the turnover expressed in quantity.

Not included: Interior doors, flat / apartment entrance doors, automatic doors (sliding doors, swing doors, revolving doors, folding doors etc.), special doors (e.g. fire-rated doors). Security doors are included

Distribution Channel

Direct

Direct sales to the end user, also by own sales rep. or Internet

DIY

Sales through large retail stores or warehouses

Indirect

Wholesale trade, retail trade and all other forms of trade in which goods are purchased and sold by a third party

Customer Segment

Residential

Residential Construction including 1-family, 2- family dwellings

Non-Residential

Non-Residential Construction such as buildings for education, health, industry, storage, office, commercial, agricultural and other purposes

Characteristics

Security Doors

Doors with Burglar Protection

Normal Doors

Doors without Burglar Protection

The Unique Mix of Methods and Approaches for Reliable Market Analysis

SELL-IN

The analysis measures Sell-In data. Sales from the manufacturer to the first distribution partner. OEMs are not taken into account.

Survey with Manufacturer & Experts

Basis of the analysis are surveys - electronic questionnaires and telephone interviews - with the most important manufacturer as well as interviews with industry experts.

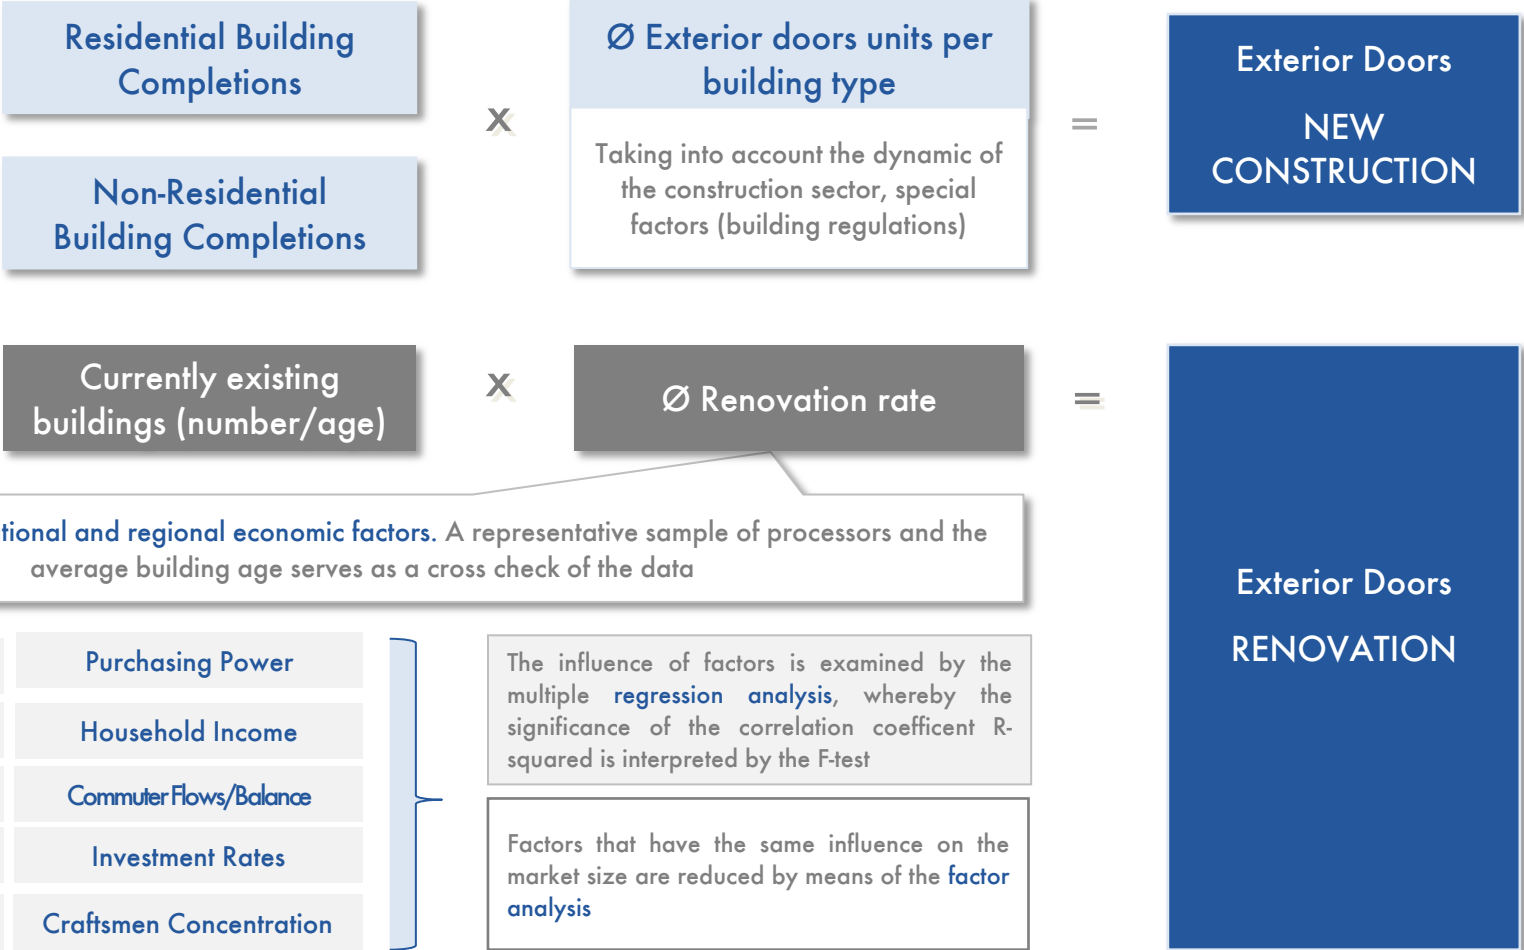

Market Calculation Model

Industry relevant market drivers are taken into account in a market calculation model to determine the total market volume and forecasts.

The strong focus on interviews within the industry is clearly our **USP**
“Only who talks with the industry knows what’s going on!”

Calculation and Forecast: Prediction Methods

The Market Intelligence Tool

Dashboards - The Best Way to Work with Data

A picture says more
than 1000 words

- Complex correlations are visualized in the form of geo-, tree maps, bars etc.

Interactive Dashboards

- Use interactive dashboards for quick implementation of the data, for potential estimations, for sales control, for success measurement etc.

Easy online
accessability

- Market data are available wherever you have internet access
- You can also export the data as .jpg, .csv or .pdf file

The price includes access to an online dashboard for 12 months in case of single issue or for the duration of the subscription in case of a subscription.

General Terms of Business

Payable on receipt of invoice without discount. Any disputes arising will be settled before a competent court of law in Vienna. We apply Austrian law. The report purchased is based on a specific methodology, which description is available for the customer on request and which fulfillment is the basis of this contract. We claim copyright protection for the work. Distribution to third parties, duplication, publication or revision, even in part, is not permitted. In case of violation the company or persons placing the order agrees to pay a contract penalty of one hundred thousand Euros in each case. All prices shown exclude sales tax. Interconnection reserves the right to use the clients' logo as reference until written revocation.
